**CITATION NO. 05-43-18C-003**

The Imperial County Division of Environmental Health, Local Primacy Agency (LPA) is issuing to you the attached citation for failure to monitor and report the quarterly disinfection by-products (herein "DBPs") for your public water system within the required timeframes, as required by Section 64534.2 of Title 22, California Code of Regulations.

**A stipulated penalty citation amount of One Hundred Dollars (\$100) is now due in full amount and must be paid within fifteen (15) days of the receipt of the attached citation. In addition to the full payment amount, the citation form must be filled out, signed and returned in order to fully execute the stipulation agreement.**

If you decide not to stipulate to the alleged violations, a formal citation order will be issued and may carry a penalty assessment of up to \$1,000 per day for each day that a violation occurred. In addition to the imposed penalty, the water system will also be liable for the time and materials used in the preparation of the citation order, which will be billed at the Department's fully burdened rate of \$137 per hour.

Any person who is aggrieved by a citation issued by the LPA may file a petition with the State Water Resources Control Board (State Water Board) for reconsideration of the citation. Petitions must be received by the State Water Board within 30 calendar days of the issuance of the citation. The date of issuance is the date when the LPA mails or serves a copy of the citation, whichever occurs first. If the 30th day falls on a Saturday, Sunday, or state holiday, the petition is due the following business day. Petitions must be received by 5:00 p.m. Information regarding filing petitions may be found at:
